

AWD. All Weather.
Off-Grid Ready.

Adventure To Go. Anywhere.

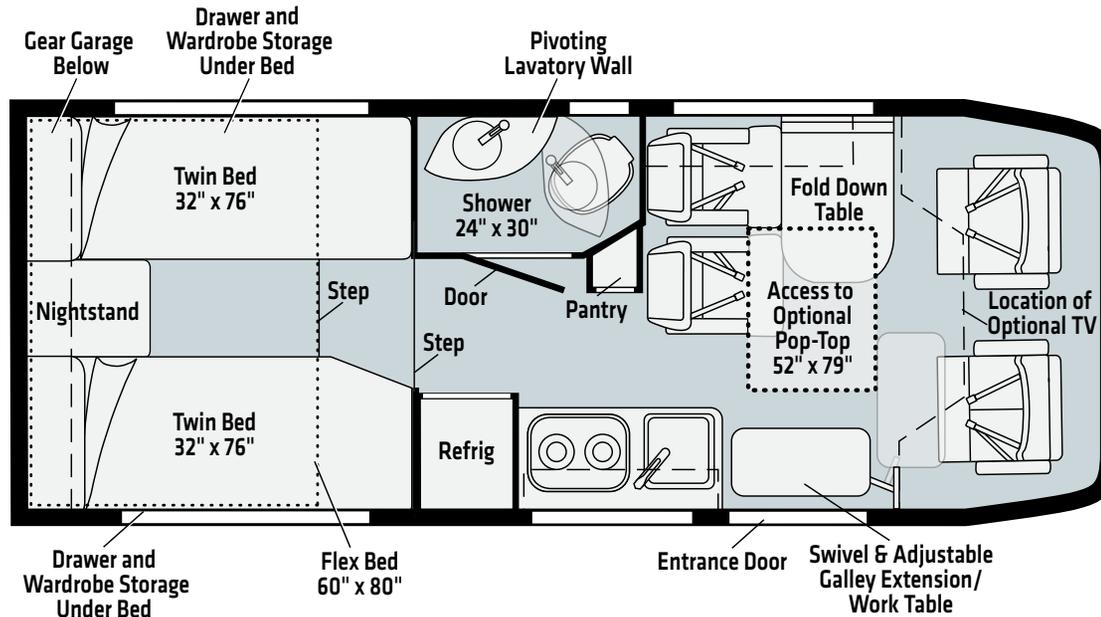

- **BIG THINGS IN SMALL PACKAGES** Combining the efficiency of a camper van and the capacity of a Class C coach, the EKKO takes the phrase 'big things in small packages' to a whole new level. From the massive heated pass-through gear garage – large enough to store bicycles, inflatable kayaks and other outdoor gear – to the large living, sleeping, and cooking space, the EKKO is sure to become your favorite adventure vehicle.
- **ALL-WHEEL DRIVE FORD® TRANSIT CHASSIS** The 3.5L EcoBoost® V6 delivers 310 horsepower and 400 lb.-ft. of torque, while the 31-gallon fuel tank greatly extends the EKKO's range. Standard safety features include Adaptive Cruise Control, Lane-Keeping System, Pre-Collision Braking, Driver Alert and more, plus the Winnebago-added Blind Spot Monitoring system.
- **OFF-GRID READY** Camp almost anywhere! Three solar panels that pump out 455 watts, a second alternator dedicated to charging the batteries while driving, and the standard lithium-ion batteries provide further energy

independence. The 50-gallon freshwater tank plus proportionate waste tanks make extended stays possible.

- **ALL-WEATHER PREPPED** With all tanks and water lines inside the coach above the floor, extensive all-season insulation in the roof, walls and floor, dual-pane acrylic windows, and multiple insulated exterior compartments, the camping season doesn't have to end when the temperature drops.*
- **THE COMFORTS OF HOME** A full galley equipped with energy-efficient appliances, our Flex Bed system with our innovative new WinnSleep™ system, and an innovative dry/wet bath with pivoting wall that separates the shower area, will make owners feel right at home anywhere. Guests on board? No problem, thanks to dinette seating with three-point seat belts and child seat tether anchors, not to mention the added sleeping capacity – and penthouse views – of the optional pop-top.

* Estimated storage without available exterior kitchen. Rear garage equates for 54.6 cu.ft. of storage.

Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at Winnebago.com

Note: Dimensions shown are for sleeping and shower space only and may vary due to styling differences.

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Contact your dealer for further information.
2. Capacities are based on measurements prior to tank installation. Slight capacity variations can result upon installation.
3. Capacities shown are the tank manufacturer's listed water capacity (W.C.). Actual filled propane capacity is 80% of listing due to overfilling prevention device on tank.
4. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Refer to the chassis operator's manual of your motor home for further towing information.

*Disclaimer: Winnebago recommends following the winter use guidelines and winterization procedures outlined in your owner's manual whenever camping in freezing conditions.

Because features, specifications, equipment, and options may vary from those highlighted in this brochure, the buyer is responsible for confirming with the dealer the features, specifications, equipment, and options included on their specific vehicle. In addition, Winnebago's program of continuous product improvement may result in changes to vehicle specifications, equipment, model availability, and price without notice.
